## FF-95 FORCED FLUE 9.5kW DIESEL HEATER

### FEATURES

Heat directed downwards warms at floor level.

**Safe, Convenient & Easy to use** - no mess, no fuss.

**Energy Efficient and Economical**

**Burns ordinary automotive diesel fuel.**

**No Diesel smell in the home EVER** - so clean and easy to use you wouldn't even know it's a diesel heater.

**No tall flue** - The balanced flue passes directly through an outside wall.

**No fire surround** or hearth required.

**Comfortable** - Large circulation fan distributes heat quickly and evenly.

**Weekly Timer** - The weekly timer can be preprogrammed up to 30 patterns in a week.

### SPECIFICATIONS

<b>Heat Efficiency</b>	92%	
<b>Fuel</b>	Automotive Diesel Only	
<b>Heat Rating</b>	<b>Output</b>	
High	9.5kW (32,400 BTU)	
Medium	5.49kW (18,700 BTU)	
Low	2.96kW (10,100 BTU)	
<b>Fuel Consumption</b>		
High	1.07 litres/hr	} 3 stage thermostat automatically controls 3 x heating stages
Medium	0.620 litres/hr	
Low	0.334 litres/hr	
<b>CO2 Emissions</b>		
High	2.789 kg/hr	} Compare to any other combustion heater!
Medium	1.963 kg/hr	
Low	0.981 kg/hr	
<b>Noise (dB @ 1m)</b>	High 40dB Med 36dB Low 30dB	
<b>Electrical Rating</b>		
Power Supply	AC 230V / 50Hz	
Ignition	260 Watts (For 4-5 minutes on startup)	
Continuous Burning	50 Watts	
<b>Fuel Tank</b>	External Tank (Not included)	
<b>Flue</b>	Balanced Flue - supplied with heater, (75mm Hole thru wall) Zero clearance to combustibles OK	
<b>Flue Extensions</b>	Some options available - Contact Avon	

<b>Dimensions</b>	720 (w) x 450 (d) x 700 (h) mm	34kg
(Packed)	795 (w) x 505 (d) x 775 (h) mm	39kg

Typical CO2 Emissions for Various Fuels	
Diesel:	2.71kg (per litre)
LPG:	3.03 kg (per Kg)
